1	This course was really interesting in that it was entirely new to me. It was easy to understand and follow due to recorded lectures and power points so you could follow along. I wanted to take the course in person and the circumstances were less than expected due to moved to online, but the professor made the most of it and gave a great classroom environment online. This course was a pleasure to take!	
2	The course was engaging and the materials were very well communicated. The professor made himself available through zoom and email as often as necessary. The papers were graded fairly and the lectures were in depth and simple to understand.	
3	I would recommend this online course to other students because it helped introduce me to International Relations and gave me a little taste of how college life is, specifically the course work.	
4	I thought the course was extremely informative and will help me in regular school and debate.	
5	I learned a lot about the intricacies of international relations that I didn't know about before, which strengthened my desire to pursue a similar course of study in college.	
6	Content was interesting, right amount of work, support was available where needed	
7	Altogether, I felt that this class provided an informative, insightful, and engaging introduction to international relations; I would recommend this course to other students interested in this field because of this.

1 The quality of your recorded lectures all have the high quality, and the assigned reading material was helpful. I really enjoyed your class. Actually, it was a lot of reading for me personally. As it was my first experience with IR, and I was spending spending majority

	time learning new things and understanding content, I'm sorry that I didn't have a lot of meaningful contributions to the discussion board. You are a great instructor, and I would love to have the opportunity to take your class again! Also, thanks for being able to respond to my emails so efficiently, especially in terms of the speed with which you reply to them!	
2	The instructor communicated effectively, was very supportive, and was always available for assistance when I requested it.	
3	The instructor was wonderful and created a space to learn online as if we were in person. The course was carefully thought out to adjusted to be taken online as it originally was going to be in person and it worked really well. I felt like I learned throughout the course and took something away from it.	
4	The course material was communicated really effectively, and it was clear that you put a lot of effort into responding to our questions about the different IR theories and finding guest speakers to help us engage with the material more.	
5	Professor Szarejko is one the most caring professors I ever had. He really cares about his students. I reply the emails right away and provide as much direction as he can to help students. He also invites guest speakers which makes the class more interesting.	
6	Professor Szarejko helped make this class engaging through his lectures and fosetering student interaction in discussion boards. He was frequently available for any questions and remained organized throughout the course. Thus, he did everything expected of an instructor and more, which is why he deserves the highest ranking possible.	
7	Overall, the professor clearly put in immense effort in all aspects of the course. This allowed me to put in the effort necessary to succeed in the course.	
8	I though the instructor was knowledgeable on the topics we touched on.	
9	I gave Mr. Andrew a 5 because thought the course, he was very helpful. All the materials he provided, the lectures, powerpoints, and assignments helped deepen my understanding of the entire course. He always encouraged us and pushed us to do better.
